Board of Trustees
City of Lauderdale Confidential and Managerial
Employees Retirement System
c/o Mr. Peter Prior
Benefits USA, Inc.
3810 Inverrary Boulevard
Suite 303
Lauderhill, FL 33319

Dear Board Members:

We are pleased to present the October 1, 2016 Actuarial Valuation for the City of Lauderdale Confidential and Managerial Employees Retirement System. The purpose of this report is to indicate appropriate contribution levels and to satisfy State requirements. The report is prepared for and at the request of the Board of Trustees.

This report consists of this commentary, detail Tables I through XVI and State Required Exhibit - Table XVII. The Tables contain basic Retirement Plan cost figures plus significant detail on the benefits, liabilities and experience of your Plan.

Costs for Fiscal Year Beginning October 1, 2016

This Actuarial Valuation develops the required minimum Retirement Plan payment for the fiscal year beginning October 1, 2016 and ending September 30, 2017 under the Florida Protection of Public Employee Retirement Benefits Act. The minimum payment consists of payment of annual normal cost plus amortization of the unfunded actuarial accrued liability over various periods, and interest, as prescribed by law.

The required funding amount for the plan/fiscal year ending September 30, 2017, to be met by the City, is **\$2,959,421** or 45.8% of covered payroll, if the requirement is met by September 30, 2017.

Changes in Plan Provisions, Actuarial Methods or Assumptions Recognized in this Valuation

This valuation recognized the same benefits as those considered in the October 1, 2015 valuation. The pertinent plan provisions are outlined in Table XI. Also, in compliance with applicable requirements of the Internal Revenue Code, Treasury Regulations and guidance issued by the Internal Revenue Service with respect to In-Service Distributions, nine (9) retired members elected to return to active membership with prior service credit for all years in which distributions were received, provided that the member paid into the plan the required employee contributions,

without interest, which would have been paid had the member not commenced receiving In-Service Distributions. Upon such member's ultimate separation from service with the City, the member's benefit payments will be reduced, and such reduction will be equivalent to the pro rata monthly share of the sum of In-Service Distributions received by the member based upon the member's life expectancy utilizing the mortality table in effect at the time the member separates from service with the City.

We reviewed the actuarial assumptions/methods used and made several changes in this valuation. The assumed interest to be earned by the Fund was changed from 7.65% to 7.60%, net of investment expenses, per annum. It is the intent of the trustees to reduce this assumption by 0.05% each year in the future until the interest assumption is 7.45%. The assumed annual salary increase was changed from 5.85% to 5.70% per year. The mortality table was changed to the mortality tables used by the FRS, as described in Item A on page 23.

There were no other changes to the actuarial assumptions/methods from those used in the October 1, 2015 valuation.

Comparison of October 1, 2015 and October 1, 2016 Valuation Results

Table II provides information of a comparative nature. The left most column contains the October 1, 2015 valuation results. The columns II, III, and IV contain the October 1, 2016 valuation results prior to and after the assumptions change and plan amendment.

A comparison of the column I and II shows the plan experience for the year. Covered payroll increased by approximately 21.4% while the number of active participants increased by 22.2%. Unfunded actuarial accrued liability decreased from \$9,819,282 to \$9,164,064, primarily due to the actuarial gain of \$156,539 (shown in Table VIII). The City cost decreased from 43.1% to 36.7% of the covered pension payroll. Comparing the second and third column shows the effect of the change in assumptions. The unfunded actuarial accrued liability increased by \$1,133,870, to the amount of \$10,297,934. The City funding requirement increased by \$161,102, from \$1,886,134 (36.7%) to \$2,047,236 (39.8%). Comparing the column III and IV shows the effect of the plan amendment. The unfunded actuarial accrued liability increased by \$2,585,874, to the amount of \$12,883,808. The City funding requirement increased by \$912,185, from \$2,047,236 (39.8%) to \$2,959,421 (45.8%).

Plan Experience

Table XVI provides a summary of certain plan experience during the plan year. The actuarial value of assets return and market value of assets return were 7.2% and 10.3% for the plan year ended September 30, 2016, respectively, as compared to the assumed 7.65%. Investment return was a source of actuarial loss. Employee turnover was about 80% lower than the expected turnover during the last plan year (a source of actuarial loss), and the average salary increase was 7.5%, as compared to the assumption of 5.85% (a source of actuarial loss). A relatively young

D

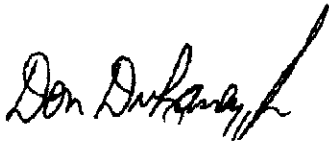

retiree with a life annuity form of benefit died, which was a source of actuarial gain. A more detailed analysis would be needed to determine the actual magnitude of loss or gain attributable to each of these elements.

Participant Census and Financial Data

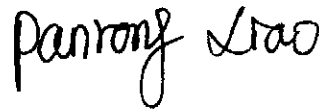

Census data for the fiscal year October 1, 2015 through September 30, 2016 was provided by the plan administrator. The census data for fiscal years prior to October 1, 2008 were provided by the plan's former plan administrator, Pension Resources Center and the former actuary, Gabriel, Roeder, Smith and Company. The data was reviewed for consistency and is believed to be reliable.

Information on Plan assets was received from the Plan's auditors. We did not audit this information, however, we believe it to be reliable.

Table VII

**CITY OF LAUDERHILL CONFIDENTIAL AND MANAGERIAL EMPLOYEES
RETIREMENT PLAN**

Changes in Plan, Methods and Assumptions

- A. City Ordinance No. 020-09-165, effective October 1, 2002. It established the City of Lauderdale Confidential and Managerial Employees Retirement Plan.
- B. City Ordinance No. 040-01-108, effective May 3, 2004, established the following:
 - Provided for pre-retirement death benefits for unmarried members who are not survived by children
 - Provided for credited service prior to October 1, 2004 for former members of the 401(a) plan who repaid refunds with interest
 - Increased the benefit accrual multiplier to 3.0% for service prior to October 1, 1994 for former General Employees Retirement System members who became members of this plan prior to September 30, 2002
 - Provided for a 2.5% multiplier for service prior to October 1, 1994, and 3.0% thereafter for former Defined Contribution Plan members
- C. City Ordinance No. 040-12-234, effective January 10, 2005. It established the Deferred Retirement Option Plan (DROP).
- D. City Ordinance No. 050-06-157, passed August 31, 2005 and effective October 1, 2004. It provided for a benefit accrual multiplier of 3.5% per year for credited service on or after October 1, 2004.
- E. Change in assumptions: The October 1, 2006 valuation instituted a change in mortality assumption from the 1983 Group Annuity Mortality Table rates to the 1994 Group Annuity Mortality Table rates.
- F. City Ordinance No. 060-03-116, effective April 10, 2006. It provided for the employer subsidized purchase of past service credit.
- G. City Ordinance No. 060-08-159, passed September 11, 2006 and effective March 1, 2006. It changed the Normal Retirement Age from age 62 with 7 years of credited service to age 55 with 7 years of credited service.
- H. City Ordinance No. 07R-08-148, passed September 10, 2007 and effective October 1, 2006. It provided for coordination of benefits in benefit eligibilities with the General Employees' Pension Plan.
- I. Effective with the October 1, 2006 valuation, new amortization bases would be funded for less than or equal to 15 years.
- J. Change in assumptions: the October 1, 2007 valuation incorporated a change in retirement rate assumption to add one (1) year minimum of future service assumed for members eligible for normal retirement on the valuation date, in order to reflect actual plan experience.
- K. Change in Methods: the October 1, 2008 valuation utilized a new asset valuation method for purposes of determining the plan's actuarial value of assets, which smoothes the differences between the expected and actual investment gains or losses over a five (5) year period, instead of the previous method of using market value of assets.

D

Table VII
(continued two)

- L. City Ordinances No. 09O-02-111 (passed February 23, 2009) and No. 09O-06-125 (passed June 29, 2009). Effective March 1, 2009, members may purchase up to five (5) years of credited service at an accrual rate of three (3%) percent per year by rendering the full actuarial cost.

In addition, the following changes were made for members hired after March 1, 2009:

- Changed the vesting requirement to be the completion of 10 years of credited service.
 - Changed the requirement for Normal Retirement benefits to be the earlier of the completion of 20 years of credited service or the attainment of age 55 with the completion of 10 years of credited service.
 - Changed the benefit accrual multiplier to 3.0% per year.
 - DROP members shall have their accounts earn interest at the same rate as the actual investment earnings of the fund.
- J. Change in assumptions: the October 1, 2011 valuation implemented the following changes in actuarial assumptions and methods:
- Changed the assumed mortality rates for health lives from the 1994 Group Annuity Mortality Table rates to the RP-2000 Mortality Table with dynamic rates by applying projections with Scale AA to future valuation years for anticipated future mortality improvements.
 - Changed the assumed mortality rates for disabled lives from the 1994 Group Annuity Mortality Table rates with five (5) years added to ages to the RP-2000 Disabled Mortality Table rates.
 - Changed the assumed interest to be earned by the Fund from 8.0% gross, before investment and administrative expenses, compounded annually, to 7.75% per year, net of investment expenses.
 - Changed the allowances for expenses from the average of the prior two (2) years' investment plus administrative expenses to the prior year's administrative expenses only.
 - Changed the assumed current salaries increase rate from 7.0% per year to 6.0% per year until retirement.
- K. Change in assumptions: the October 1, 2015 valuation implemented the following changes in actuarial assumptions and methods:
- Changed the assumed interest to be earned by the Fund from 7.75% to 7.65% per year, net of investment expenses.
 - Changed the assumed current salaries increase rate from 6.0% per year to 5.85% per year until retirement.
- L. Change in assumptions: the October 1, 2016 valuation implemented the following changes in actuarial assumptions and methods:
- Changed the assumed interest to be earned by the Fund from 7.65% to 7.60% per year, net of investment expenses.
 - Changed the assumed current salaries increase rate from 5.85% per year to 5.70% per year until retirement.
 - Changed the mortality table to the mortality tables used by the FRS, as described in Item A on page 23.

V. Notes to Required Supplementary Information

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information as of the latest actuarial valuation follows:

Valuation Date	October 1, 2016
Actuarial cost method	Entry Age Normal Level Percent
Amortization method	Layered amortization
Equivalent single amortization period	9 years
Asset valuation method	See Table XII., Item 8.
Actuarial assumptions:	
Investment rate of return*	7.60%
Projected salary increases*	5.70%
Cost-of-living adjustments	Variable cost-of-living benefit increase

* Includes inflation at 3.0%

¹ City contribution as determined by the prior plan year's actuarial valuation for plan years prior to 2006.

Table XI

**CITY OF LAUDERHILL CONFIDENTIAL AND MANAGERIAL EMPLOYEES
RETIREMENT PLAN**

Outline of Principal Provisions of the Plan

1. Effective Date

October 1, 2002. The latest ordinances reflected are City Ordinance No. 09O-02-111 and No. 09O-06-125.

2. Eligibility Requirements

Full-time confidential and managerial employees and elected officials. Police officers and firefighters are excluded.

3. Credited Service

Service of a member from employment date through termination date measured in years and completed months. A member may have purchased prior service as outlined below, however, such options expired on April 1, 2006:

Members who were former participants of the IRC 401(a) or IRC 457 defined contribution plans may transfer their account balances and remit amounts equal to their employee contributions for those years to obtain service credit under this plan back to the later of October 1, 1994 or date of hire. An annual benefit rate of 2.5% would apply to service prior to October 1, 2004, and an annual benefit rate of 3.0% per year would apply to years of service between October 1, 1994 and October 1, 2002.

Also, members may purchase up to five (5) years of service at 3.0% per year by paying the full actuarial cost of the increased service credit.

Effective October 1, 2006, service under this plan was combined with service under the General Employees' plan for the purposes of determining vesting and retirement eligibilities. However, benefits payable under this plan would only be computed based on actual service performed under this plan.

4. Earnable Compensation

Fixed monthly compensation.

5. Final Monthly Compensation (FMC)

Final Monthly Compensation is the average monthly rate of Earnable Compensation during the best sixty (60) consecutive months of employment.

6. Employee Contributions

8.0% of Earnable Compensation.

Table XI
(continued two)

7. Normal Retirement Date

For members hired on or prior to March 1, 2009, the first of the month coincident with or next following the earlier of (i) completion of 20 years of Credited Service or (ii) the attainment of age 55 with completion of seven (7) years of Credited Service.

The Normal Retirement Date for members hired after March 1, 2009 will be the first of the month coincident with or next following the earlier of (i) completion of 20 years of Credited Service or (ii) the attainment of age 55 with completion of 10 years of Credited Service.

8. Amount of Normal Retirement Income

For former General Employees' Plan members who were hired on or before March 1, 2009:

The monthly retirement income is equal to 3.0% times FMC for Credited Service through September 30, 2004 plus 3.5% times FMC for Credited Service thereafter, payable under the normal form of payment under the plan.

For former Defined Contribution Plan Members who were hired on or before March 1, 2009:

The monthly retirement income is equal to 3.0% times FMC for Credited Service through September 30, 2004, plus 3.5% times FMC for Credited Service thereafter, payable under the normal form of payment under the plan.

For members hired after March 1, 2009:

The monthly retirement income is equal to 3.0% times FMC for each year of Credited Service.

9. Early Retirement Date

The attainment of age 55 and completion of 15 years of Credited Service.

10. Amount of Early Retirement Income

Benefit accrued to Early Retirement Date payable at Normal Retirement Date, or actuarially reduced from age 62, with reductions of 1/15 for each of the first five (5) years and 1/30 for each additional year thereafter.

11. Delayed Retirement Date

A member may continue to work beyond his Normal Retirement Date and retire on any subsequent first day of the month.

12. Amount of Delayed Retirement Income

The benefit accrued on Delayed Retirement Date.

Table XI
(continued three)

13. Benefits on Termination of Service

In the event of termination of service prior to Normal Retirement Date or Early Retirement Date, for reasons other than death, early retirement or disability, a monthly benefit will be payable commencing at age 62, equal to the benefit accrued up to the date of termination, or the refund of accumulated employee contributions made, if the terminated member has completed seven (7) or more years of Credited Service (10 years of Credited Service for members hired after March 1, 2009). Otherwise, the member is entitled only to the refund of accumulated employee contributions made with 3.0% interest compounded annually.

14. Disability Retirement Benefits

Serviced Incurred Disability eligibility: total and permanent disability as a result of injury suffered in the line of duty.

Non-Service Incurred Disability eligibility: total and permanent disability with the completion of seven (7) years of Credited Service.

The monthly disability benefit shall be the greater of the benefit accrued at date of disability or 20% of the rate of monthly earnings at the date of disability. However, the total benefits payable from the plan due to disability shall not exceed 100% of the rate of monthly earnings at the date of disability less (i) 100% of Worker's Compensation benefit, and (ii) 100% of Social Security benefit. The benefit would be payable until the earlier of death or recovery from disability.

15. Death Benefits

Service Incurred:

Eligibility: Death that occurred while in the line of duty.

Benefits: 20% of monthly salary at the date of death, payable until the later of (i) death or remarriage of surviving spouse, or (ii) when the youngest child reaches the age of 18.

Non-Service Incurred:

Eligibility: The member must be eligible for Early or Normal Retirement at the date of death

Benefits: If the deceased member has a surviving spouse, the benefit payable would be one payable as if the member had retired and elected a 50% joint and survivor benefit at the date of death, with the 50% survivor benefit payable until the later of (i) death or remarriage of the surviving spouse, or (ii) when the youngest child reaches the age of 18. If the deceased member does not have a spouse, then the benefit payable would be computed and payable to the beneficiary or beneficiaries as if the member had retired and elected a 10 year certain and life thereafter benefit at the date of death. Such benefit would be payable for at least 10 years or until the date the youngest child reaches the age of 18, whichever is later.

D

Table XI
(continued four)

16. Normal Form of Retirement Income

The normal form of payment is a life only annuity for the retiree.

17. Optional Forms of Retirement Income

The following optional forms of retirement income may be elected by a member without presenting evidence of good health, if elected at least one year prior to his date of retirement:

Option 1 A retirement annuity payable to the member during the joint lifetime of the member and a joint pensioner designated by the member, and following the death of the retiree, 50%, 66-2/3%, 75%, or 100% depending on the retiree's election, of such smaller monthly amount payable to the surviving joint pensioner for his or her lifetime.

Option 2A 10 year certain and life annuity payable during the lifetime of the participant with 120 guaranteed payments.

Option 3 For any joint and survivor benefit, the member may elect to purchase the option of permitting the substitution of a new survivor in the event of the death of the survivor or dissolution of marriage.

18. Deferred Retirement Option Plan (DROP)

The DROP is available only if the member makes an irrevocable election to participate upon the eligibility of Normal or Early Retirement. The DROP has a five (5) year maximum participation period. The DROP account shall be credited with the actual fund investment return per year. If the member dies or becomes disabled during the DROP period, the member will have presumed to have retired on a normal retirement on the day prior to disability or death.

19. Cost of Living Adjustment

If the plan has a positive actuarial experience for the prior fiscal year, the Board of Trustees may authorize a non-recurring cost of living adjustment benefit increase for retired members commencing in the third year after retirement. Such increase, if any, would not exceed 3.0% of the annual benefit in any given year.

20. Changes from Most Recent Valuation

In compliance with applicable requirements of the Internal Revenue Code, Treasury Regulations and guidance issued by the Internal Revenue Service with respect to In-Service Distributions, nine (9) retired members elected to return to active membership with prior service credit for all years in which distributions were received, provided that the member paid into the plan the required employee contributions, without interest, which would have been paid had the member not commenced receiving In-Service Distributions. Upon such member's ultimate separation from service with the City, the member's benefit payments will be reduced, and such reduction will be equivalent to the pro rata monthly share of the sum of In-Service Distributions received by the member based upon the member's life expectancy utilizing the mortality table in effect at the time the member separates from service with the City.

D

Table XII

**CITY OF LAUDERHILL CONFIDENTIAL AND MANAGERIAL EMPLOYEES
RETIREMENT PLAN**

Actuarial Assumptions and Actuarial Cost Methods

1. Mortality:

Healthy Mortality (other than Special Risk, Pre-Retirement and Post-Retirement)

- Female: RP2000 Generational, 100% Annuitant White Collar, Scale BB

- Male: RP2000 Generational, 50% Annuitant White Collar / 50% Annuitant Blue Collar, Scale BB

Disabled Mortality (other than Special Risk)

- Female Disabled: RP2000, 100% Disabled Female set forward two years, no projection scale

- Male Disabled: RP2000, 100% Disabled Male setback four years, no projection scale

Twenty-five percent (25%) of pre-retirement deaths are assumed to be service related.

2. Interest to be Earned by Fund:

7.60%, net of investment expenses, compounded annually.

3. Allowances for Expenses:

The actual administrative expenses of the prior year.

4. Employee Withdrawal Rates:

Withdrawal rates were used in accordance with a table per the following illustrative example:

<u>Withdrawal Rates Per 100 Employees</u>	
<u>Age</u>	
20	25.0
25	24.0
30	17.0
35	13.2
40	10.2
45	7.2
50	4.2
55	1.2
60 & over	0.0

D

Table XII
(continued two)

5. Retirement Age Assumption:

For members hired prior to March 1, 2009, the earlier of the completion of 20 years of Credited Service or the attainment of age 55 with completion of seven (7) years of Credited Service. For members hired after March 1, 2009, the earlier of the completion of 20 years of Credited Service or the attainment of age 55 with completion of 10 years of Credited Service. However, members eligible for immediate normal retirement on the valuation date are assumed to have at least one (1) year of future service.

6. Salary Increase Factors:

Current salaries are assumed to increase at a rate of 5.70% per year until retirement.

7. Disability Rates:

Disability incidence rates were used in accordance with a table per the following illustrative example:

<u>Age</u>	<u>Disability Rates</u>
	<u>Per 100 Employees</u>
20	0.07
25	0.09
30	0.11
35	0.14
40	0.19
45	0.30
50	0.51
55	0.96
60	1.66
65 & over	0.00

25% of disabilities assumed to be service incurred, 75% assumed to be non-service incurred.

8. Asset Valuation Method:

The actuarial value of assets is determined by smoothing the differences between actual investment earnings and assumed investment earnings over five (5) years. This method was adopted effective October 1, 2008 with no phase-in. The resulting value is then limited to between 80% and 120% of market value.

Table XII
(continued three)

9. Actuarial Cost Method:

Normal Retirement, Termination, Disability and Pre-Retirement Death Benefits: Entry-Age-Actuarial Cost Method.

Under this method the normal cost for each active employee is the amount which is calculated to be a level percentage of pay that would be required annually from his date of hire to his retirement age to fund his estimated benefits, assuming the plan had always been in effect. The normal cost for the plan is the sum of the individual normal costs for all active participants. The actuarial accrued liability as of any valuation date for each active employee or inactive employee who is eligible to receive benefits under the plan is the excess of the actuarial present value of estimated future benefits over the actuarial present value of current and future normal costs. The unfunded actuarial accrued liability as of any valuation date is the excess of the actuarial accrued liability over the actuarial value of assets of the plan.

The amortization bases would be funded by the excess of actual contributions over prior year's normal cost, adjusted with interest. For each existing base, the funding is done proportionally, determined based on the individual base's required amortization payment as a percentage of the overall total required total amortization payment for the prior year. New bases are then added to the total outstanding unfunded actuarial accrued liability as new layers.

For the nine (9) retirees who returned to active membership on or about October 1, 2016, the increase in their Actuarial Accrued Liability, net of the required employee contributions, without interest, which would have been paid had the member not commenced In-Service Distributions, was established as an amortization base, to be amortized over five (5) years.

10. Marriage Assumptions:

100% of active participants were assumed married, with husbands three (3) years older than wives.

11. Inflation Assumption:

3.0% per year.

12. Changes from Last Actuarial Valuation:

- Changed the assumed interest to be earned by the Fund from 7.65% to 7.60% per year, net of investment expenses.
- Changed the assumed current salaries increase rate from 5.85% per year to 5.70% per year until retirement.
- The mortality table was changed to better reflect expected plan experience.

* Bases spun off from the Lauderhill General Employees' Retirement Plan as of October 1, 2002.

D

Table XVII
(continued five)

This actuarial valuation and/or cost determination was prepared and completed by me or under my direct supervision, and I acknowledge responsibility for the results. To the best of my knowledge, the results are complete and accurate, and in my opinion, the techniques and assumptions used are reasonable and meet the requirements and intent of Part VII, Chapter 112, Florida Statutes. There is no benefit or expense to be provided by the plan and/or paid from the plan's assets for which liabilities or current costs have not been established or otherwise provided for in the valuation. All known events or trends which may require a material increase in plan costs or required contribution rates have been taken into account in the valuation.
